

FORM D

Clinical Management of Suspected Malaria

Form D follows one patient through the consultation: how they were received, what history was taken, what was examined, what was tested and what was prescribed.

Eleven sections, one screen at a time. Nothing is scored — you record what the clinician did.

HOW TO USE THIS GUIDE

Each step shows the screen as it looks on your phone, with numbers on the parts that matter. The page after it explains those numbers. Every question must be answered before the form will submit to the ICF-SL server.

WHAT THIS GUIDE COVERS

Five steps.

1 The health worker you observe

2 Reception and clinical history

3 Severe signs and physical examination

4 Diagnosis and treatment

5 Actions, feedback, then submit

THE WORKER YOU OBSERVE

Section 2. One card per health worker.

2. STAFF OBSERVATION

Healthcare Worker #1

Cadre of staff being observed *

Midwife

1

Gender *

☐ Male

☒ Female

Formally trained/mentored in malaria case management? *

☒ Yes

☐ No

2

If yes, when was the last time? *

☒ Past 6 months

☐ Past year

+ Add Another Healthcare Worker

3

THE WORKER YOU OBSERVE

What each number on the previous page means.

1 Cadre and gender

Both compulsory. “Other” opens a box to type the cadre.

2 Trained, mentored, when

Whether they were trained in case management, and when they were last mentored.

3 + Add Another Healthcare Worker

One card per worker — next pages.

ADD ANOTHER WORKER

The button sits under the last worker card.

BEFORE

2. STAFF OBSERVATION

Healthcare Worker #1

Cadre of staff being observed *

Midwife

Gender *

☐ Male

☒ Female

Formally trained/mentored in malaria case management? *

☒ Yes

☐ No

If yes, when was the last time? *

☒ Past 6 months

☐ Past year

+ Add Another Healthcare Worker

ADD ANOTHER WORKER

A blank Healthcare Worker #2 opens below it.

2. STAFF OBSERVATION

Healthcare Worker #2

Cadre of staff being observed *

Select...

Gender *

Male

Female

Formally trained/mentored? *

Yes

No

+ Add Another Healthcare Worker

ADD ANOTHER WORKER

What to do with the new card.

1 Watching two clinicians?

Add a card for each one.

2 The same five questions

Cadre, gender, trained, mentored, when.

3 Added by mistake?

Tap the red ✕ on its header.

RECEPTION AND HISTORY

Section 3: how the patient was received.

3-4 · HISTORY

Section 4 of 11: Clinical History

4. CLINICAL HISTORY

Was the temperature taken? *

☒ Yes

☐ No

Were the pulse, blood pressure and respiratory rates taken? *

☐ Yes

☒ No

← Back

Next →

RECEPTION AND HISTORY

Section 4: the history and the vital signs.

5 · SEVERE SIGNS

5. SIGNS OF SEVERE MALARIA

Did the clinician check for signs of severe malaria?
(Select all that apply) *

Convulsion

Reduced urinary output

Prostration

Inability to drink

Altered consciousness

Other specify...

1

Greeting and introduction

Two questions in section 3. Mark what you saw.

2

History and vitals

Referral, demographics, medical history, weight and height, temperature, hyperpyrexia, pulse, BP, respiration.

THE PHYSICAL EXAMINATION

Section 6. Anemia, chest, full examination, IPC.

5. SIGNS OF SEVERE MALARIA

Did the clinician check for signs of severe malaria?
(Select all that apply) *

☒ Convulsion

☐ Reduced urinary output

☒ Prostration

1

☐ Inability to drink

☒ Altered consciousness

Other specify...

THE PHYSICAL EXAMINATION

What each number on the previous page means.

1 Tick every box that applies

Severe signs and serious-disease signs are multi-select.

2 Anemia and chest

Palmar or conjunctival pallor; fast breathing or chest in-drawing.

3 IPC

Gloves, hand washing or sanitiser, and the patient's sitting position.

Hyperpyrexia is above 37.5°C

And “vitals taken” means all three — pulse, blood pressure and respiratory rate. Two out of three is No.

DIAGNOSIS AND TREATMENT

Section 7. The longest section — work down it slowly.

7. DIAGNOSIS & TREATMENT

What was the Malaria test result? *

☐ Positive

☒ Negative

1

☐ Invalid

If negative, did the provider explore other causes of fever? *

☒ Yes

☐ No

2

☐ N/A

If uncomplicated, treated according to national policy? *

☐ Yes

☐ No

3

☒ N/A

DIAGNOSIS AND TREATMENT

What each number on the previous page means.

1 Test result first

Positive, Negative or Invalid. Everything below follows from it.

2 Negative? Other causes

Did the provider look further, or send the patient away untreated?

3 N/A is not No

Positive-only questions are N/A on a negative result.

4 Recorded in the register?

Test order, result and diagnosis each have their own question.

Watch the classification

Uncomplicated or severe changes everything after it: policy treatment, pre-referral treatment, the referral note.

ACTIONS AND STAFF REACHED

Section 8: which areas had an issue today.

8 · ISSUES

8. IMMEDIATE CORRECTIVE ACTIONS

Clinical history taking *

☒ Yes (Issue present)

☐ No issue

Diagnose and treatment *

☐ Yes (Issue present)

☒ No issue

ACTIONS AND STAFF REACHED

Section 9: how many staff you reached on each.

9 · STAFF REACHED

9. TOTAL NUMBER OF STAFF REACHED

Training on malaria case management *

3

Clinical history taking *

2

Diagnose and treatment *

Number of staff reached

1 Nine areas, Yes or No

“Yes” means an issue was present — the opposite of a score.

2 Then the counts

For each area you worked on, record the number of staff reached.

FEEDBACK, RATING, SUBMIT

Section 10: your feedback and your rating.

10 · FEEDBACK

10. SUPERVISOR FEEDBACK

Did you provide feedback to staff on clinical management? *

☒ Yes

☐ No

Overall rating of this HF on Clinical Management *

☐ Unsatisfactory

☒ Fair

☐ Satisfactory

☐ Excellent

OVERALL RATING	Fair

Healthcare Workers Observed (2)

WORKER #1	Midwife Female Trained: Yes
WORKER #2	CHT Male Trained: No

1 Feedback given?

If No, tick the reason — no febrile patient, no lab, no time.

2 Your rating

Unsatisfactory, Fair, Satisfactory or Excellent. Your judgement.

FORM D IN FIVE MOVES

Note the worker

1

A card per clinician: cadre, gender, training, mentorship.

Reception

2

Greeting, history, weight, temperature, vitals.

Examination

3

Severe signs, anemia, chest, full exam, IPC.

Diagnosis

4

Test, result, register entries, classification, treatment, referral.

Close

5

Issues, staff reached, feedback, rating, submit.
