

FORM E

Perennial Malaria Chemoprevention at EPI

Form E is filled at the EPI clinic. You watch a child come for penta 2, penta 3 or measles vaccine and check whether the SP dose and the ITN went with it.

Ten sections, one screen at a time. Nothing is scored — you record what happened.

HOW TO USE THIS GUIDE

Each step shows the screen as it looks on your phone, with numbers on the parts that matter. The page after it explains those numbers. Every question must be answered before the form will submit to the ICF-SL server.

WHAT THIS GUIDE COVERS

Six steps.

1 The two EPI counts

2 The worker you observe

3 Guidelines, tools and stock

4 Giving the IPTi-SP dose

5 ITNs and counselling

6 Actions, feedback, then submit

THE TWO EPI COUNTS

Section 1 ends with two numbers that frame the whole visit.

DATA ENTRY

MOCM/OTSS+ CHECKLIST

FORM E: Perennial Malaria Chemoprevention (PMC) at EPI Services

FORM E: PMC AT EPI SERVICES

Section 1 of 10: Facility Demographics

1. FACILITY DEMOGRAPHICS

District *

Bo

1

Chiefdom / Zone / City *

Baoma Chiefdom

2

Health Facility (PHU) *

Faabu CHP

Health Facility Type *

CHP

HF workers at the EPI unit today *

4

Providers trained on PMC guidelines in last 2 years *

2

Next →

THE TWO EPI COUNTS

What each number on the previous page means.

1 HF workers at EPI today

Who was actually on duty — not the establishment. One aide running a busy session explains a lot.

2 Providers trained on PMC in 2 years

Count providers, not training events. A facility can hold four trained staff and still have none on duty.

These two numbers are the denominator

Read the rest of the form against them: a missed dose at a one-worker session is a different finding from the same miss with four trained staff present.

THE WORKER YOU OBSERVE

Section 2. One card per health worker at EPI.

2. STAFF OBSERVATION

Healthcare Worker #1

Cadre of staff being observed *

MCH Aide

1

Gender *

☐ Male

☒ Female

Trained in administration of malaria vaccine? *

☒ Yes

☐ No

2

+ Add Another Healthcare Worker

3

THE WORKER YOU OBSERVE

What each number on the previous page means.

1 Cadre and gender

Both compulsory. "Other" opens a box to type the cadre.

2 Trained in vaccine administration

Whether this worker was trained to give the malaria vaccine.

3 + Add Another Healthcare Worker

One card per worker — next pages.

ADD ANOTHER WORKER

The button sits under the last worker card.

BEFORE

2. STAFF OBSERVATION

Healthcare Worker #1

Cadre of staff being observed *

MCH Aide

Gender *

☐ Male

☒ Female

Trained in administration of malaria vaccine? *

☒ Yes

☐ No

+ Add Another Healthcare Worker

ADD ANOTHER WORKER

A blank Healthcare Worker #2 opens below it.

2. STAFF OBSERVATION

Healthcare Worker #1

Cadre *

MCH Aide

Healthcare Worker #2

Cadre of staff being observed *

Select...

Gender *

Male

Female

Trained in malaria vaccine administration? *

Yes

No

+ Add Another Healthcare Worker

ADD ANOTHER WORKER

What to do with the new card.

1 Two workers at EPI?

Add a card for each one.

2 The same three questions

Cadre, gender, trained on vaccine administration.

3 Added by mistake?

Tap the red ✕ on its header.

GUIDELINES, TOOLS AND STOCK

Section 3. What must be on hand for PMC to happen.

Section 3 of 10: PMC Guidelines & Tools

3. PMC GUIDELINES & TOOLS

SP available for administration of IPTi at EPI *

☒ Yes

☐ No

1

Supply of clean water and cups for IPTi-SP (Select all that apply) *

☒ Cups

☒ Buckets

☐ Spoons

☐ Tablets cutter crusher

2

ITNs available for EPI service (PENTA 3) *

☐ Yes

☒ No

3

← Back

Next →

GUIDELINES, TOOLS AND STOCK

What each number on the previous page means.

1 SP in stock

No SP means no IPTi today — and it belongs in section 7.

2 Water, cups, spoons, crusher

Multi-select. A dose given by DOT needs all of it.

3 ITNs for Penta 3

Whether nets are available at EPI at all.

Look, don't ask

Guidelines, posters, job aids and cups are all observed items. Walk to the EPI table and check.

GIVING THE IPTi-SP DOSE

Eligibility first: due for vaccine, age, fever.

ELIGIBILITY

4. ADMINISTER IPTi TO ELIGIBLE CHILDREN

Is the child due for penta 2, 3 or measles vaccine? *

☒ Yes

☐ No

Child had fever or signs of malaria in the previous 2 days *

☐ Yes

☒ No

Tests for malaria if fever present *

☐ Yes

☐ No

☒ N/A

GIVING THE IPTi-SP DOSE

Then the dose itself, and the records.

THE DOSE

4. ADMINISTER IPTi — THE DOSE

Is child already on any Sulphur medication? *

☐ Yes

☒ No

If not on Sulphur medication, was PMC administered in correct dose? *

☒ Correct SP dose administered via DOT

☐ SP provided in correct dose but not taken on site

☐ SP prescribed in correct dose but not provided

☐ Incorrect SP dose provided

☐ Incorrect SP dose prescribed

Records PMC in register and vaccination card (Select all that apply) *

☒ Register updated correctly

☐ EPI card updated correctly

☐ Neither updated correctly

1 Due for penta 2, 3 or measles

PMC rides on those three visits. If not due, the rest is N/A.

2 Fever in the last 2 days

If yes, the child is tested and treated first — SP is not for a sick child.

ITNs AND COUNSELLING

Section 5: was a net given, and if not, why.

5 · ITNs

5. DISTRIBUTE ITNS VIA EPI

Was the child given an ITN? *

☐ Yes

☒ No

If not given at Penta 3, what were the reasons? (Select all that apply) *

☐ Physical Access: Nets locked away

☐ Documentation: Provider too busy

☐ Assumptions: Child already has net

☒ Stock out of ITNs

ITNs AND COUNSELLING

Section 6: the eight counselling messages.

6 · COUNSELLING

6. COUNSELLING & EDUCATION

Prevention with PMC: monthly dosing schedule *

☒ Yes

☐ No

Client to return for next EPI visit for next IPTi dose *

☐ Yes

☒ No

Mother to repeat key messages before departure *

☐ Yes

☒ No

1 Net given at Penta 3

If not, tick every reason — locked away, too busy, assumed, stock-out.

2 Register and EPI card

Both the register and the child's card should show the net and the dose.

ACTIONS, FEEDBACK, SUBMIT

Sections 7 and 8: issues found, and staff reached.

7 · ISSUES

7. IMMEDIATE CORRECTIVE ACTIONS

Availability of ITNs at EPI/ANC *

☒ Yes (Issue present)

☐ No issue

Administration of PMC-SP to eligible children *

☐ Yes (Issue present)

☒ No issue

ACTIONS, FEEDBACK, SUBMIT

Section 9: your feedback and rating, then submit.

9 · FEEDBACK

9. SUPERVISOR FEEDBACK

Did you provide feedback on the PMC workflow at EPI? *

☒ Yes

☐ No

Overall rating of this HF on PMC at EPI *

☐ Unsatisfactory

☒ Fair

☐ Satisfactory

☐ Excellent

← Back

✓ SUBMIT FORM

1 Eight areas, Yes or No

“Yes” means an issue was present — the opposite of a score.

2 Then the counts

Section 8: how many staff you reached on each area.

FORM E IN SIX MOVES

Count

1

EPI workers on duty; providers trained on PMC.

Note the worker

2

A card per worker: cadre, gender, vaccine training.

Check the table

3

SP, water, cups, crusher, ITNs, guidelines.

Watch the dose

4

Eligibility, fever, Sulphur check, then the five dose options.

Net and messages

5

ITN given or the reason why; the eight counselling points.

Close

6

Issues, staff reached, feedback, rating, submit.
